

You will be provided with an estimate of the anticipated charges of your care upon request. Please do not hesitate to ask for more information.

Estimates are not a guarantee of cost and your final bill may be greater than the estimate if alternative or additional services are rendered. Estimates provided are based on clinical and administrative information available at the time the estimate is drafted. Information regarding insurance coverage is obtained as a courtesy and is not a guarantee of benefits. Benefits are determined by your insurance company at the time the claim is processed. Below are codes commonly billed by Alaska Hand Rehabilitation, Inc. A detailed estimate and/or additional information regarding codes and pricing are available upon request.

Commonly Billed Codes

CPT Code	Fee	Description
97165 - 97167	\$198	Occupational Therapy Evaluation (Low, Moderate, or High Complexity)
97168	\$123	Occupational Therapy Re-Evaluation
97110	\$84	Therapeutic Exercises – 15 min.
97140	\$84	Manual Therapy – 15 min.
97033	\$91	Iontophoresis – 15 min.
97035	\$62	Ultrasound – 15 min.
97014	\$62	Electrical Stimulation

Commonly Used CPT Codes

97165 Occupational Therapy Evaluation (Low Complexity) - \$198

This is an evaluation that includes a complete assessment of a person's physical status and abilities and combines all relevant information to develop a plan of care of occupational therapy treatment. Low complexity is not directly related to the severity of the individual's injury but rather relates to the number of performance deficits (1-3) and past medical history that results in activity limitations and/or participation restrictions.

97165 Occupational Therapy Evaluation (Moderate Complexity) - \$198

This is an evaluation that includes a complete assessment of a person's physical status and abilities and combines all relevant information to develop a plan of care of occupational therapy treatment. Moderate complexity is not directly related to the severity of the individual's injury but rather relates to the number of performance deficits (3-5) and past medical history that results in activity limitations and/or participation restrictions.

97014 Electrical Stimulation - \$62

Application of an electrical stimulation device in one or more areas.

97033 Iontophoresis - \$91

A process in which a steroidal anti-inflammatory is driven through the skin with an electrical charge. A battery in the iontophoresis patch provides the driving force.

97035 Therapeutic Ultrasound - \$84

A treatment modality that is used to provide thermal and non-thermal effects to soft tissue in the body. These tissues include muscles, tendons, joints, and ligaments.

97110 Therapeutic Exercises - \$84

Therapeutic exercises are used to develop strength, endurance, range of motion, and flexibility.

97140 Manual Therapy - \$84

Techniques such as connective tissue massage, joint mobilization and manipulation, and manual traction.

L3808 Wrist Hand Finger Orthosis - \$450

A rigid orthosis without joints which may include soft interface material or straps. Custom fabrication. This code includes fitting and adjustment.

L3913 Hand Finger Orthosis - \$325

An orthosis without joints which may include soft interface material or straps. Custom fabrication. This code includes fitting and adjustment.
